International Exhibition of Economic  
and Scientific Innovations INTARG

2016-04-13 14:13:34

9th edition of International Exhibition of Economic and Scientific Innovations, INTARG 2016 the instrument of application and commercialization of inventions and innovations "from Idea to Profit" June 14th-15th, 2016, International Conference Centre in Katowice, Poland

**INTARG is under the patronage of Deputy Prime Minister, Minister of Science and Higher Education- Jarosław Gowin and other institutions.**

We would like to invite you to participate in the **International Exhibition of Economic and Scientific Innovations INTARG** which will take place from 14<sup>th</sup> to 15<sup>th</sup> June 2016 in Katowice.

**International Exhibition of Economic and Scientific Innovations, INTARG** is a tool of market-oriented promotion of innovative products, technologies and services with Technology Readiness Level (TRL) between 4 and 9, as well as innovations which already entered the market and commercialization of which already begun. For many years, INTARG has been a platform for exchange of experience and knowledge between inventors, innovative companies, scientific and research units, industry, business circles, universities and schools. Participation in International Exhibition of Economic and Scientific Innovations INTARG is important and effective mean of international promotion of scientific and technical achievements of scientific and research units and other economic entities. The mission of the show is to stimulate modernization of Polish economy through promotion of inventions and companies that create and apply inventions and innovations.

The Exhibition will be held in a newly opened International Congress Centre in Katowice, modern world-class building, which meets the requirements of international congress and exhibition organizations. Its additional advantage is attractive location, in the heart of the capital of the most industrial region of Poland, next to Spodek and close to main routes connecting the city with the whole area of Silesia region and other parts of Poland. Such location undoubtedly will have a positive effect on numbers and quality of visitors.
