Koronea Group is active in two sectors. ZPUE is the leader in advanced solutions and the production of power engineering products. Stolbud is a window and doors manufacturer.

The Group consists of 22 production plants and sales offices across 11 countries hiring 3000 employees across our companies.

In the UK we are focused on our windows and doors activity. Koronea have been supplying windows and doors to executive homes in London for a couple of years and are now establishing a local presence. We manufacture high-quality timber, PVC and aluminium windows, as well as exterior and interior doors. Our factories are equipped with the most modern production lines. Investment in new technology is key to our success as is our close attention to detail and design.

We're currently looking for business partners and distributors in the UK.
