Ente Ltd. was founded in 2000 in Gliwice, in the south part of Poland. We are a design and manufacturing company. We design systems, equipment and software in the field of electronics, IT and automation

Ente Ltd. was founded in 2000 in Gliwice, in the south part of Poland. **We are a design and manufacturing company.** We design systems, equipment and software in the field of electronics, IT and automation. Solutions designed by our engineers are successfully used in the following trades:

- **rail and road transport**
- **industry**
- **mining**
- **defense**
- **gas**
- **telecommunication**

ENTE is the performer of technologically advanced systems, the integrator of all processes from design, manufacturing, inspection, implementation and service. In addition to production of our own solutions we offer the possibility to design devices according to customer needs by offering comprehensive implementation of projects.

Presently **we are looking for a partner**, who would take care of distribution and implementation **innovative anti-collision AWIA Horyzont® system.**

It is a technologically advanced system, designed and produced by our company, which support safe driving under conditions in which limited visibility poses a challenge. It:

- monitors the area around the vehicle
- warns of personnel approaching the vehicle via a color coded display
- warns of personnel in direct machine proximity through the use of optical and acoustic signal
- detects transmitter equipped personnel within 18 meters in warehouses and within 30 meters in open space

It can improve the safety of pedestrian employees in the following working environments:

- manufacturing
- warehousing
- loading and unloading zones
- terminals

This is a unique and precise solution, it stands out from the systems available on the market and we have a pending patent application.

AWIA Horyzont® system got the following awards:

- Gold Medal MTP - International Fair of Work Protection, Fire-Fighting and Rescue Equipment "SAWO 2016"
- GOLD MEDAL MTP Customers choice - International Fair of Work Protection, Fire-Fighting and Rescue Equipment "SAWO 2016"
- GRAND PRIX SAWO 2016 - International Fair of Work Protection, Fire-Fighting and Rescue Equipment "SAWO 2016", in the category of: "Individual and collective protection measures"
- II Award - CIOP „National Competition of the Working Conditions' Improvement", in the category of: „Technical and Organizational Solutions"
